Forecast for Saturday 20 Nov 2021

Weather: Rather cloudy overnight and through the morning with some patchy light rain or drizzle, mainly focused across western and southern ranges. Mainly dry through the afternoon with some brighter spells developing, then a band of mostly light and patchy rain extends across the area from the north early evening, before passing to the south around midnight, leaving dry and occasionally clear conditions.

Chance of cloud free mountain/hill tops above 600m: 40% becoming 80% during the afternoon, 20% for the evening, before lifting 95% towards midnight.

Visibility: Good of very good, becoming moderate or poor in rain and drizzle, also very poor in hill fog with bases quite extensive in west and south, more broken in northeast, above 450m in rain and drizzle.
